

I am applying for this internship because I wish to be immersed in the atmosphere and skills related to the field I want to pursue. I am interested in the law field. I hope to become an immigration lawyer. I believe this internship will help me to learn the process of legislation and how laws are made and passed firsthand. While in high school, I had an internship with Brown and Crouppen Law Firm. Three summers at this internship, I learned skills including time management, organization, and professionalism. I was able to see lawyers work around me, which deepened my interest in pursuing law. My first job just so happened to be in corporate America. I was required to dress as a business professional on a daily basis. This internship will allow me to build upon the skills I've learned previously and to continue to develop new ones. I will also be able to learn more about legislation as a whole, which interests me very much. I hope to develop new business contacts through networking. I am looking forward to experiencing the atmosphere of the State Capitol. I am interested in learning what kind of jobs are available at the Capitol and how these jobs work together. By spending more time learning about these different jobs and their duties, I would love to see what our elected officials are doing from day to day. I believe I will find a new appreciation for elected officials. In conclusion, this internship would be such a rewarding experience for me because I already have a huge interest in the legal field. This internship opportunity would allow me to gain new skills, meet new business contacts, and become more aware of the things going on in the State Capitol that affect the public, which also includes me. This amazing experience would aid in my future career success.
