

I am excited to apply for the CLIP internship because I am passionate about pursuing a career in law, and I believe this internship will provide me with the hands-on experience I need to understand the legal field better. As someone who has worked in various customer service roles, I've had the opportunity to engage with diverse groups of people in different settings, from the fast-paced environment of an airport to the more personal interactions at a grocery store. This experience has shown me how important it is to understand different perspectives and communicate clearly and effectively.

Throughout these roles, I have developed valuable skills in problem-solving, conflict resolution and active listening, skills that are transferable to the legal profession. At the airport, I learned to stay calm under pressure while assisting a passenger with time sensitive issues. My time working with children taught me how to communicate complex ideas in simple, and engaging ways while developing patience and building trust.

I am particularly drawn to this internship because it will allow me to work alongside professionals who can offer insight into how legal processes unfold in real world situations. I will be able to learn not just in a classroom setting but also personally seeing and assisting people with the law. I am eager to apply the skills I've developed in customer service to legal work, whether it's through conducting research, assisting with case preparation or engaging with clients. This internship is an excellent opportunity to build a foundation for my future legal career by gaining exposure to the day to day responsibilities.

I am confident that this experience will not only enhance my understanding of law but also equip me with the practical skills necessary to succeed in my academic journey.
