

PERSONAL STATEMENT

I have always been one who goes after what they want, and what I want is justice. I have known from the time I was eight years old that I belonged somewhere in the political realm, and the calling I believe I hear is lobbying. Over the past ten years of my life I have put myself in clubs and groups that reflect the type of work I want to do when I graduate, from the Pro-Life club to the Turning Point USA chapter I am currently a member of.

I am seeking a CLIP internship because of my passion for politics and justice. I truly love learning all there is to learn about our justice system and the way the law has been and is being applied in the United States. I am a strong student and when I am passionate about a topic I go at it full force. I also believe I am a strong arguer and I am very motivated when I am assigned a task. I am very good with people and am able to talk to anyone, no matter the topic. If I were to be awarded this internship I strongly believe it would impact my future career in all of the best ways possible. I know that I want to lobby when I graduate, and being able to say I have worked under a senator, governor, or the attorney general would make me stand out amongst other applicants. An internship in Jefferson City would encourage me to get to know all sorts of people and strengthen my travelling, arguing, communication skills, and more.
